(By telegraph to the Dispatch.) St. Louis, June 4.-St. Louis to-day has assumed the crowded condition that is alwave usual during national conventions. As sariv as 7 o'clock this morning the Union depot was packed, and all during the day, at ntervals of five and ten minutes, regular and special trains have been coming in emptying their loads of people. Delega-claus began to arrive early. They all wore ladges and nearly all bandanas. The word on their lips was "Thurman," Notwith-standing the excitement and bustle, there was little cheering, all hands evidently re-serving themselves for an outburst of enthusiasm later in the proceed-lers, when it would parhaps count samething. Trains bringing the New eago County Democracy arrived before them, and so did the Iroquois Club of the same city. Each bad a big band of music, and all owa, wearing "Gray" badges, and were the first of the arrivals showing a disposition to yell. The Topska Democratic Flambeaux Club, with tin believes and canvas uniforms.

LEANING TO "THE OLD ROMAN," The feature of the morning probably was the Kanssa City Democratic Glub's entry. Their band was extravagantly arrayed and andana handkerchlefs, snowing their leanbigh hat a small but complete rooster. The cinb was preceded by grotesque-looking fismeraux men in the moreh down town.

PENSATIVANIA FOR THURMAN.

The Penn-ylvania delegation met this morning, sud, after organizing, took a ballot to ascertain its choice for the candidate for Vice-President. The roll was called and Thurman was voted for unanimously. It is understood there were seven members of the delegation man that the seven yielded their opinion in

Scott persists in deciaring Thurman is not the Administration candidate, but adds that Thurman will be monipated because the party wants bim, and because he is the strongest candidate. He admits Thurman is his personal choice, but defines that the Precident is in any way committed to it, and the great mass of Democrate because the President might as well be committed to it, and the great mass of Democrate because the President might as well be committed to it, and the great mass of Democrate because the President desires it.

[Special telegram to the Dispatch.] The Pennsylvania delegration held a meeting the situation exhaustively, a committee was appointed for the purpose of this foreacon, and after its adjournment the samouncement was made that two-thirds of the delegrates from the Keystone State favored the old Senator and that the minority would vote for him under the unit rule. This of course meant that Scott had thrown this state for Thurman, and when the fact became renerally known there was no longer any doubt of the success of the Scott pro-

The friends of General Black opened head-quarters at the Lindell Hotel this morning and attempted to get up a boom for him, but their efforts met with little success, the gene-ral feeling being that if Thurman was not put through Gray could easily win.

ATTITUDE OF THE OHIOANS. From the first there has been something queer about the attitude of the Ohio delegation. It had talked for Thurman, but has not been enthusiastic in his behalf, and the matter was discussed for more than hour in a meeting of the delegation this afternoon. The result was the endorsement of Thurman, though it was with much difficulty that any of the anti-Thurman men were won over. A resolution was offered by Delegate Baker pledging the Obio delega-tion to vote for Thurman if his name was presented to the convention. This was in the nature of a compromise, as a majority of the delegates wanted to make Thurman the Onlo candidate, to be presented by the State, while others opposed Thurman out-

ROCKDALE, TEXAS, June 4.— This morning a few minutes before 4 o'clock the Mundine Hotel, a three-story brick building, was found to be on fire, and according to those who were first on the ground, it was all on fire at once. Inside were thirteen persons, only two of whom escaped alive. Dr. W. A.
